MEMORANDUM FOR: Associate Deputy Director  
for Administration

FROM: Robert W. Magee  
Director of Personnel

SUBJECT: Retirement Projection - DDA

1. This memorandum responds to your request for the number of DDA retirements for the remainder of FY 1984 and for all of FY 1985 from the DDA.

2. The number of DDA retirements experienced so far in FY 1984 represents about a 40 percent increase over the number of retirements for the same period in FY 1983. In addition, the Retirement Affairs Division indicates that they have an unusually large number of DDA requests for retirement benefit estimates which indicates the current DDA retirement rate is likely to continue. However, our projections show that if the current rate of DDA retirements continue, the number of retirement eligibles will drop from a

Obviously, this rate could not be sustained indefinitely because of the lack of sufficient numbers of retirement eligibles.

3. The projections for the last half of FY 1984 and for FY 1985 are attached. We have tried to keep them relatively simple by only showing totals, but I have also requested the Chief, Human Resources Planning Staff, to supply any additional information or explanations you may need. Now that we have tailored a working retirement model to the DDA, we are able to provide considerably more information than just the totals on the attached sheet.
